

YOLO DEMOCRAT.

County Official Paper.

WOODLAND, CAL.
Saturday, February 4th, 1871.

COLORADO LANDS.—The National Land Company of Colorado has disposed of 84,000 acres of land since April.

Kossuth.—Louis Kossuth, the Hungarian, is reported at the point of death, in Turin, Italy.

HIGH PRICE FOR WHEAT.—In Liverpool wheat is worth 12 shillings; San Francisco price, \$2 50; and in Woodland \$2 25 per cental.

SLANDER SUIT.—E. F. Boyle has instituted a suit for slander against C. P. Sprague in the District Court of this County, claiming damages to the amount of \$10,000.

FOR TREASURER.—G. E. Sill, former Treasurer of this County, we see mentioned as a candidate for nomination by the Democratic State Convention for State Treasurer.

WHEAT SHIPMENT.—The British ship Mary Ann Wilson, #44 tons, loaded with wheat at Vallecjo, makes the thirty-sixth vessel that has taken a wheat cargo from that port this season.

LIBEL SUIT DISMISSED.—The Sacramento papers contain the following in their reports of Monday's proceedings in the District Court: "C. Y. Hammond vs. M. A. Woods et al.—Dismissed for want of prosecution."

COMMUTATION TICKETS.—The Steamer New World is now owned by the Cal. P. R. B. Co., and commutation tickets are being issued to parties desiring them, at a reduction of 100 per cent, from old rates; fifty tickets are now sold for \$25.

HON. CHAS. F. REED RE-ELECTED.—Hon. Chas. F. Reed, of Knight's Landing, Yolo County, has been re-elected President of the State Agricultural Society, which position he has filled with great credit to himself and the Society for several years.

THE MORNING CALL.—The San Francisco Morning Call has attained a circulation of 20,000 copies daily. It requires 1,470 pounds of paper, or nearly three-quarters of a ton, for each day's edition. It is quite needless for us to say the Call is a good paper, and its price is only one bit a week.

WOMAN ONLY A "SIDE ISSUE."—The New York Herald says the ladies who are opposed to woman suffrage have presented a remonstrance to the Senate against it. They see that the women's rights are trying to make women the main element in politics when, ever since the days of Adam, she has merely been a side issue.

"WHEN GREEK MEETS GREEK," ETC.—A hand to hand fight is reported to have occurred between two colored editors the other day in San Francisco. The distinguished parties to the encounter were Peter Anderson, of the Pacific Appeal, and "Brother Bell," of the Elevator. The "Greeks" met, the "tug of war" came, but neither were vanquished and neither victorious—no bad blood spilled.

DENIAL.—Hon. Wm. Minis denies that he intends to be a candidate for nomination for the office of Lieutenant Governor before the Democratic State Convention. It is well known that Mr. Minis is a hold-over Senator from Yolo and Solano counties, and he authorizes us to state that he will not be a candidate for the Lieutenant Governorship, and wishes his friends to so understand, notwithstanding the rumors to the contrary.

PREMIERE CONCLUSION.—The Mendocino Democrat concludes that the contest for the Democratic gubernatorial nomination is narrowed down to two candidates—Governor Haight and Congressman Johnson. It will indeed be strange if there are but two candidates before the Convention for so prominent a position, especially when a nomination is considered equivalent to an election. The Democrat is mistaken. There will be several other very worthy candidates, but judging from the present outlook we should not be surprised if his Excellency, H. H. Haight, were nominated on the first ballot.

EVERY BODY'S MAGAZINE.—A new venture in periodical literature, is on our table, and if we may judge from the variety, excellence, and adaptability of the contents, it is destined to be immensely popular wherever boys are. A healthy, vigorous tone prevades the matter, and there is a total absence of anything that savors of cant. Fiction, travel, biography, and adventure, are given in judicious proportions; fifty cents a year. A specimen copy will be sent for two three-cent stamps. All boys sought to subscribe. Wm. Ridgely, a Providence Court, Boston, is the publisher.

YOUNG PILOT.—This new monthly has, in three short months, taken a high rank among magazines. The February number contains the continuation of an excellent serial by Wm. Everett; a brilliant paper on Books and Reading by Robt. Laird Collier; an exquisite poem by Edgar Fawcett; Picked Up Dinners, No. 1, by Wisp, and half a dozen more articles of decided merit, all combined to make an admirable number. Young people in their teens and older persons will find this magazine exceedingly readable. Only \$1.00 per annum. Send stamp for specimen, to the Young Pilot Pub. Co., Chicago.

POLITICAL DISABILITIES AND DEMOCRACY.—During the debate on the political disability bill in the United States Senate on Tuesday, 10th inst., Mr. Salisbury of Delaware, suggested that all the difficulty in regard to the removal of political disabilities could be settled by the enactment of a principle. Let a test be applied, let it be understood that the test of Congress is this: "Does the person whose disabilities are to be removed vote the Republican ticket?" "That is the best test of loyalty," he continued "and it makes no difference, as the action of the Executive and as legislation here has shown, what part an individual has taken in the late war. He may have slaughtered hundreds of your citizens, he may have been one of the most efficient upholders of the Confederate cause. But that is no matter, provided that he now votes the Republican ticket and shows fidelity to the Republic cause. It is all right, so he changes his voice, and cries loudly, 'rebel,' 'traitor' and 'ku-klux' against his former associates. Let it be known that this is the rule to be applied, it will be very plain and simple, and every one will know what to do. Vote the Republican ticket, and holler 'rebel' and 'ku-klux' against your old friends and associates."

INTERESTING TO SWAMP LAND OWNERS IN RECLAMATION DISTRICT NO. 108.—The following communication from Mr. Blanding explains itself. It will be especially interesting to owners of swamp lands in Reclamation District No. 108, the greater portion of which lies within the boundaries of Yolo County:

SAN FRANCISCO, January 25, 1871.
EDITOR YOLO DEMOCRAT: The Register of the State Land Office informs me that "where the office has received official notice that the work of reclamation has been commenced in properly organized swamp land districts, the surveys therein embraced will be completed by the 1st of January, 1871." Such notice was filed in Swamp Land District No. 108, last November; so that the interest which was due in advance, January 1870, on lands in this District, need not be paid, as it has not been and will not be returned to the District Attorney as delinquent. Of course the interest due January 1871 will be paid for the same reason. I desire to state also, that the assessment list showing the amount due from each land-owner in the District has been filed in the County Treasurer's office and will soon become delinquent and be then collectible in the same manner as State and county taxes.

Please insert this note for the information of those within that District. Respectfully yours,
WM. BLANDING,
Attorney for Trustees.

SENATOR SALISBURY ON THE RADICALS. In reply to an assault by Mr. Pomeroy upon the Democratic party, Senator Salisbury retorted in this fashion, as we learn from the Dover Delawarean: "Such assaults have been made upon the Democratic party from its very birth. And what is this party that is how so bitterly assailing it? A party which has subverted every principle of constitutional liberty, which is constantly warring against the decrees of Almighty God, Himself. A party whose latest exploit is an attempt to annex to this country a free negro republic; a party whose only mission is to degrade the white man and elevate the negro. When the Democratic party comes into power in 1872, it will, as far as possible, restore the Government to what it was designed to be by its founders."

TOO MUCH OF GRANT ALREADY. That Democratic papers do not like the President is a matter of course, but we doubt if there ever was in this country (except perhaps in the case of Andy Johnson) a President who has received from his own party papers, and those of influence, too, such unmerciful castigations as Grant is now getting all over the country. Hear the Cincinnati Commercial, a prominent Radical paper, rail at him. It would prefer even Horace Greeley or Ben. Butler to Grant:

We would prefer Horace Greeley, high far be it, to a second term of Grant. Charles Sumner would be an improvement. Why not try a tall man? Just once? Sumner is a person of stature in all respects. If Sumner is impracticable, try Charles Adams. There is no better material than Adams. And if Adams won't do, there is no other. Henry Wilson, Ben Butler, anybody. The country has been wholly dried up. Men still live in it."

SACRAMENTO BEET SUGAR COMPANY. The Sacramento Valley Beet Sugar Company, at its annual meeting in Sacramento, on Monday last, reflected the old Trustees for the ensuing year, and seem determined to go into the manufacture of sugar understandingly hereafter. From the Reporter we learn: This company are now having prepared four hundred and thirty acres for planting the sugar beet seed recently received from Germany. The ground is being thoroughly plowed with subsoil plows to the depth of fifteen inches. The seed will be planted in rows by machinery. The company have on hand seed enough to plant two hundred acres more than they are at present preparing. It is expected that the new Superintendent, with a party of men accustomed to the manufacture of sugar, will sail from Germany on the 25th of this month. They will reach here early in March, when the enterprise will be pushed with great vigor. The Trustees intend to prove that sugar can be manufactured from beets in Sacramento and the enterprise be made to pay.

THE COIN PRIZES.—Following are the winning numbers of cash prizes in the Nevada lottery, and the amount drawn by each:

Ticket 44,723 won the \$200 prize; 25-217, \$100; 45,818, \$1,000; 46,150, \$5,000; 11,049, \$1,000; 5,781, \$200; 5,458, \$200; 30,019, \$200; 7,029, \$100; 45,913, \$1,000; 13,203, \$200; 33,746, \$2,000; 10,412, \$200; 45,109, \$1,000; 10,943, \$10,000; 49,347, \$100; 25,734, \$100; 42,312, \$100; 33,060, \$200; 45,062, \$200; 3,965, \$3,000; 3,043, \$100; 2,278, \$200; 45,342, \$100; 3,098, \$100; 42,352, \$100; 14,092, \$1,000; 17,111, \$100; 9,306, \$200.

Letter from San Francisco.
SAN FRANCISCO, Feb. 2, 1871.
GERMAN REJOICING.

Lager beer has flowed freely this week, and the light wine of the German Rhine sparkled in many a Teutonic beaker. As for the poor Frenchmen, one must needs pity them, however his sympathies may have gone at the beginning of the war. But there are not many of them, and their mournful faces do not even suffice to give a somber back ground to the German rejoicing. The torchlight procession of Tuesday night was a big turnout as far as numbers went, but the torchlights did not amount to much, and the transparencies to still less. Considering the number of Germans in the city—the corner grocery men must be a host in themselves—the procession was not first class. Nothing to compare with the seas of light which surged down our streets during the last Presidential campaign. Nevertheless there is no mistaking the feeling of our German fellow citizens—they feel about as good as they ought to feel, and that is saying a good deal.

THE GERMAN VOTE.
Nor, I am sorry to say, is there any mistaking the political feeling of the Germans just now. Out of sheer antipathy to the Irish, their determination to vote the Republican ticket in future got a long start at the beginning of the war; but was cooling down considerably when the *Economist* reported that the Irish had been expelled from the city. It is all right, so he changes his voice, and cries loudly, 'rebel,' 'traitor' and 'ku-klux' against his former associates. Let it be known that this is the rule to be applied, it will be very plain and simple, and every one will know what to do. Vote the Republican ticket, and holler 'rebel' and 'ku-klux' against your old friends and associates."

POLITICAL MOVEMENTS.
While there is a great deal of political gossip there is really not much of it which has sufficient basis to be worth repeating. Peter Donohue is definitely in the field, though he is not yet responding largely to the "boys" who are making a dead cat at him; but it is supposed that when the time comes he will arrive, provided that Peter sees there is any show, his Adjutant, Jimmy O'Neil, will open two or three big bags of money on one of the corners of Montgomery street. Mr. Bowie, Philip Roach, and all the other San Francisco candidates seem also to be "laying back for developments." Frank McCoppin says he is not a candidate for anything, and all he wants is to be let alone; but people will insist on naming him as a candidate, now for Governor, and now for Lieutenant Governor. Findley, of Nevada, has been down here, but I don't think he found things particularly to his liking. The fight just now in this city, is all against Haight, and a Haight fight it is. Money is being already placed to beat him, and his enemies say that if necessary, one or even two hundred thousand dollars will be used in San Francisco to send to the Convention delegates pledged against him. The opposition, however, has not yet been united on any one man; and as we can be judged by the fact that some of these heretofore useless lands will be cultivated the present season.

THE OVERLAND MONTHLY.—We are in receipt of the February number of this really excellent California Magazine, which contains an unusually large variety of interesting reading matter, among which are the following articles: Salt-Making in Alameda, by Judson Farley; The Rothschilds and their Race, by N. S. Dodge; Coast Whaling, by C. M. Scamman; Circumstances, by Charles Warren Stoddard; A Phantom Tragedy, by Joseph Clifford; Graveyard Literature, by W. N. Granger; A New View of the Labor Question, by John Hayes; The Night Dancers of Walpole, by Charles Warren Stoddard; The Lost Friend, by C. H.; Under the Dragon's Footstool, by J. Ross Browne; How Jack Breese Missed being a Fashy, by Henry George; A Chinese Primer, by H. A. Sawtelle; Grizzly Papers, by "Ursum"; An Emblem, by Ina D. Coolbirth; Chloe, by M. B.; and a number of articles under the head of "Current Literature." John H. Carmany & Co., publishers, San Francisco.

SKATING RINK.—To-night closes the season at the Skating Rink.

GREASING WAGONS.—Greasing buggies and wagons is of more importance than some owners imagine. Many a wheel is ruined by oiling too plentifully. A wheel which will endure constant wear for ten to twenty years if care is taken to use the right kind and proper amount of oil; but if this matter is not attended to, the wheel will be used up in a few days, or may be ruined. Greasing should never be used on a wagon; for it will penetrate the hub and work its way out around the tenons of the spokes and spoil the wheel. Nothing but castor oil should be used, and it should be applied to the axle, just as one would apply to a spindle to give it a light coating; this is better than more, for the surplus put on will work out at the ends and be forced by the shoulders of the spokes, and the axle will be greased. To oil an axle, first wipe the spindle clean with a cloth wet with turpentine. It won't wipe without it. On a buggy or carriage, wipe and clean off the back and front ends of the hubs and then apply a few drops of castor oil near the shoulders and point. One teaspoonful is sufficient for the whole. Greasing, Spring, Header and Lumber wagons will do well with a few drops of castor oil. Greasing should never be used on a wagon; for it will penetrate the hub and work its way out around the tenons of the spokes and spoil the wheel. Nothing but castor oil should be used, and it should be applied to the axle, just as one would apply to a spindle to give it a light coating; this is better than more, for the surplus put on will work out at the ends and be forced by the shoulders of the spokes, and the axle will be greased. To oil an axle, first wipe the spindle clean with a cloth wet with turpentine. It won't wipe without it. On a buggy or carriage, wipe and clean off the back and front ends of the hubs and then apply a few drops of castor oil near the shoulders and point. One teaspoonful is sufficient for the whole. Greasing, Spring, Header and Lumber wagons will do well with a few drops of castor oil. Greasing should never be used on a wagon; for it will penetrate the hub and work its way out around the tenons of the spokes and spoil the wheel. On a buggy or carriage, wipe and clean off the back and front ends of the hubs and then apply a few drops of castor oil near the shoulders and point. One teaspoonful is sufficient for the whole. Greasing, Spring, Header and Lumber wagons will do well with a few drops of castor oil. Greasing should never be used on a wagon; for it will penetrate the hub and work its way out around the tenons of the spokes and spoil the wheel. Nothing but castor oil should be used, and it should be applied to the axle, just as one would apply to a spindle to give it a light coating; this is better than more, for the surplus put on will work out at the ends and be forced by the shoulders of the spokes, and the axle will be greased. To oil an axle, first wipe the spindle clean with a cloth wet with turpentine. It won't wipe without it. On a buggy or carriage, wipe and clean off the back and front ends of the hubs and then apply a few drops of castor oil near the shoulders and point. One teaspoonful is sufficient for the whole. Greasing, Spring, Header and Lumber wagons will do well with a few drops of castor oil. Greasing should never be used on a wagon; for it will penetrate the hub and work its way out around the tenons of the spokes and spoil the wheel. The Gold Democrat.

LOOK ALOFT.

Take the trials God has sent you,
Smooth the wrinkles from your brow.
Half the troubles that oppress you
Matter not a week from now—
If you know how to take them,
Ask him; He will tell you how.

Be not troubled, over-careful,
Lest the night find you in light,
And in looking after trifles,
Graver things pass out of sight,
And in cleaning household vessels,
Fail to keep your own heart bright.

What if childish hands are busy
Strewing flowers, or tracking clay
Over floors just scoured so lately?
Little footsteps trudge away,
Stains and tracks of merry children
Are not dust—let them play!

True, your husband likes things tidy,
But he likes all cheerful too;
He forgives a slight confusion,
Squares it with a smile from you,
Then a spiky bit of gossip
Makes him feel as good as new.

Men, though wanting all things easy,
Don't object to trash and noise—
Hearing echoes of their own life
In the cracks of their own shoes,
And I think they like the music
Of their own drums and clogs.

My own husband, heaven bless him!
When I work with might and main,
Washing, scrubbing, and scouring,
Drooping, floor and window-pane,
He says "Sweet, things are easy,
Clear the dust from off your brain."

Miscellaneous Items.

HAYTI has a population of 572,000, of which 562,000 are Catholic, and Protestant 10,000.

RICHMOND, Va., boasts that of 1,000 of her citizens who died in 1870, only one died of gout and four of intemperance.

It is estimated that five million trees are planted annually in the State of Iowa, two farmers in Grundy having set twenty-six thousand this spring.

THERE are now fifteen Groves and two Chapters of Druids in San Francisco working respectively in the English French and German languages.

THE sugar refineries of San Francisco are attempting to destroy confidence in the best sugar enterprises of the State, because they are likely to reduce their enormous profits.

It is rumored that a benefit will be given by the actors of New York for the little church around the corner; the proceeds to be applied to such charity as the Rev. Dr. Houghton may select.

KING WILLIAM has sent the sword that Napoleon III. surrendered at Sedan to hang beside the sword that Napoleon I. gave up to Blucher at Waterloo, in the Prussian military college at Berlin.

IOWA ranked as the twentieth State in population, in 1860. In 1870, it ranked as the eleventh. There is a difference of only a few thousand in the populations of Iowa, Wisconsin and Michigan.

AN eagle was shot a few days back near Belle in Austria, bearing a collar with the date 1846, and some arms partially effaced by time and exposure to the weather.

THE following are the ages of several prominent New York millionaires: Wm. B. Astor is nearly 78; Alexander T. Stewart, 68; Cornelius Vanderbilt, 70; Daniel Drew, 71; Peter Cooper, 73; George Law, 73.

OF the seventy-nine French Generals who were in active service at the beginning of the war (according to the Paris *Moniteur*), there are now left only thirteen, the rest being prisoners or among the killed or wounded.

IT is strange that the only chapter in the Bible written by a woman (the mother of King Lemuel), contains a plea for woman's wages: "Give her the fruit of her hand; and let her own works praise her in the gates."

FOR the year 1870 the increase of population by immigration was 15,000, of whom 9,000 were Chinese with tails on their heads, and 6,000 people with white skins and without tails on their heads. Tails win by 3,000 majority.

THE British Museum is at last to have a building in which its scientific cabinets can be displayed. A plot of ground sixteen and a half acres in extent has already been purchased, and the building to be first erected will cost \$1,700,000.

IN one of the large Philadelphia factories, eighteen hundred men make a locomotive engine in one day—wheels, cylinders, frame, driving wheels, truck, stack, cab, pilot and tender complete—the speed of forty miles an hour, and the power of a thousand tons created in a day.

THE life of an editor is not always free from care. They have to stand this up in Newnan, Georgia: "Come and look, mother," said a little boy, "there goes an editor." "My son, you should not make sport of the poor man; you cannot tell to what extremity you may come."—*Chastelton Courier*.

A MAN in Fort Wayne, Indiana, lost his wife, and had a stone erected over her grave. He married a second wife, and when she died he had the grave stone split, and it then served for the third other day. He proposed to the third, and she accepted him, and he marked, "I do not believe that stone will split again."

THERE are two bills before the Illinois Legislature which are, to say the least, unique. They propose to offer bounties to encourage the planting of trees. One of them exempts from taxation land set apart for growing trees, and the other gives half a cent for every tree six feet high, excepting in case of nurseries.

A SALOON-KEEPER at Lansing eulogizes a deceased Michigan legislator: "Gentlemen, Mr. R. was a fine man. He used to spend his evenings at my saloon, and run up a bill of \$125 at my bar, and paid it like a man. At the close of the session he went down the street and drank some one's poor liquor, and that is what killed him, poor man."

THE total quantity of ingot copper and copper ore shipped from all the mines of the Lake Superior region for the past year amounts to 14,169 tons, of which 4,568 tons were ingot copper. The total quantity of iron ore and pig iron shipped from the same region during the past year amounts to 929,344 tons, of which 45,782 tons were pig iron. The yield of iron was forty per cent. over that of 1869.

THE will of the late Dr. Isaac Rowell, dated October 6th, 1867, disposes of his property by making his wife sole executrix, and closes with the following curious provision. The sixth clause of the will says: "After death I wish my body to be dissected by my medical friends, the soft part buried, and the ashes preserved in an urn; the skeleton wired together and both kept in some medical college or university in San Francisco. But in case my wife should wish for them it is my will they be delivered to her in case she should be willing to pay the expense of their preparation." His widow desired to have his remains embalmed and interred in Lone Mountain, and they were accordingly treated by Dr. Lyford and disposed of as she desired.

H. T. HELMBOLD'S

GENUINE PREPARATIONS.

"HIGHLY CONCENTRATED" COMPOUND
FLUID EXTRACT BUCHU.

A positive and Speedy Remedy for diseases of the
Bladder, Kidneys, Gravel and Dropsical Swellings.

This medicine increases the powers of digestion, and excites the absorbents into health, by which the matter of calcareous depositions, and all irregular enlargements are reduced, as well as pain and inflammation, and is good for men, women and children.

H. T. HELMBOLD'S EXTRACT BUCHU.
For weakness arising from Excesses, Habits of Disipation, Early Indiscretion, attended with the following symptoms:
Indisposition to Exercise, Loss of Power, Nervous Trembling, Horror of Disease, Wakefulness, Illness of vision, Pain in the Back, Hot Hands, Flushing of the Face, Dryness of the Skin, Eruptions of the Face, Universal Lassitude, Pallid Countenance, Muscular System.

These symptoms, if allowed to go on (which this Medicine invariably removes), soon follow:
FATIGUE, EPILEPTIC FITS, &c., in one of which the patient may expire. Who can say they are not frequently followed by these dreadful diseases?

INSANITY AND CONSUMPTION?
Many are aware of the cause of their suffering, but none will confess. The records of the insane asylums and the melancholy deaths by consumption bear ample witness to the truth of the assertion.
The Constitution once affected by organic weakness, requires the aid of medicine to strengthen and invigorate the system, which H. T. HELMBOLD'S EXTRACT OF BUCHU invariably does. A trial will convince the most sceptical.

INSANITY AND CONSUMPTION?
Many are aware of the cause of their suffering, but none will confess. The records of the insane asylums and the melancholy deaths by consumption bear ample witness to the truth of the assertion.
The Constitution once affected by organic weakness, requires the aid of medicine to strengthen and invigorate the system, which H. T. HELMBOLD'S EXTRACT OF BUCHU invariably does. A trial will convince the most sceptical.

R. H. McDONALD & CO.,
Wholesale and Retail
DRUGGISTS,
SAN FRANCISCO, CAL.

Call on the English and French agents of "New World" Goods, composed of every thing best in the world supplied WHOLESALE AND RETAIL.
FRESH FRUITS, FRUIT PRESERVES, PATENT MEDICINES, DRUGGISTS' SUPPLIES, ESSENTIAL OILS, PERFUMERIES, SOAP, AND ALL KINDS OF DRUGS.
Which we offer at the lowest Cash Prices, and with advantages never before offered.

FOR SALE.
OUR DRUG BUSINESS located in San Francisco, Cal. After our best wishes, and after giving our thanks for the liberal patronage we have received for more than twenty-one years, during which period we have been steadily engaged in the drug business in California, we have in consequence of the rapid growth of Dr. Walker's California Vinegar Bitters, more space over the United States and Europe far beyond we are necessitated to devote our entire time to said business.

We are the oldest Drug Firm on the Pacific Coast, and the only one continuous under the same proprietors since 1849, and have been committed to sell our large, prosperous, and well established business, free from all Alcoholic Stimulants, and the only one of the kind in the West. This is a rare opportunity for men with means, of entering into a profitable business with advantages never before offered.

For particulars enquire of
R. H. McDONALD & CO., Wholesale Druggists,
J. C. Spear, Successors,
No. 11, Third St. San Francisco, Cal.

IN THE case made we would continue our importations and keep a large stock on hand, and sell at prices as low as competition.

THE GREAT Medical Discovery!
DR. WALKER'S CALIFORNIA VINEGAR BITTERS,
Hundreds of Thousands
Bear testimony to their Wonderful
and Curative Effects.

WHAT ARE THEY?
THESE BITTERS are a powerful and healthy tonic, and are the only ones of the kind in the West. They are the only ones of the kind in the West. They are the only ones of the kind in the West.
